

**SIGN:**

Danger Thin Ice

**COMMENT:**

Uses Uniform State Waterway Marking System standard markings for dangerous areas (orange diamond shape).

**RECOMMENDATION:**

None.

PO-23

**SIGN:**

Danger High Voltage Overhead Wires Low Clearance No Sailboats Beneath Wires

**COMMENT:**

Specialized graphics and specific warning about sailboat danger.

**RECOMMENDATION:**

Add text identifying clearance distance. May want to install staff gage or list clearance when reservoir is at highest elevation. Install at sufficient distance to allow viewer to avoid hazard.
